WALL ST.

STOCK REPORTS.

Bears Make the Most of the Day in Wall Street.

Disappointment Over the Weakness of the Market.

Only Slight Results from Gould's Presidents' Conference.

The great railway conference having been held and no important action having been taken, Wall Street was expected to show a decided improvement to-day.

The market had been in training for several weeks, under the very best of hands, and were in prime condition.

It being the largest sale that any men of this class ever bought, it was an unusual interest in the market.

There was no end to the hustling last night among the sporting men of this city to get the tip to the fight.

JUSTICE ASKED.

Mamie Murphy's Father Pleads for a Trial of Her Murderer.

He Offers Testimony of Jackson's Threat to Kill.

Will the District-Attorney Ask to Reopen the Case?

High Murphy, the father of Mamie Murphy, who was killed last April by Charles Jackson in Chris Johnson's saloon, called at the District Attorney's office yesterday and pleaded for a trial of her murderer.

It was Murphy's intention to call for a trial of her murderer, and to have Jackson's case reopened.

Jackson's counsel put in a plea of guilty of manslaughter in the first degree last Friday, and on recommendation of Assistant District Attorney Parker, Justice Martine accepted it.

To-day the cool server Mr. Murphy's protest may not appear without reason. The published circumstances of the murder are these: Jackson was the girl's discarded lover. He found her in Chris Johnson's saloon drinking with Policemen, whom she appeared to favor. He stabbed her to death on the spot and fled with the blood-stained knife in his grasp.

Jackson was finally captured in a little town in Michigan, where he had obtained a position in a printing office. He was a compositor by trade. He was brought back to New York and confined for murder in the first degree.

His crime at the time was regarded as a particularly brutal one, and there was little doubt in the public mind that his conviction would be certain. There were several witnesses to the murder, and from the evidence at the Coroner's inquest it was held that he was guilty of the crime.

In explanation of his action Mr. Parker made this statement: "I examined the witnesses in the case and found no evidence of Jackson's intent to kill. The only evidence regarding the murder was obtained from affidavits sworn to by Jackson's friends, who were holding a meeting near by."

The fight was fast and furious and sticks and stones were freely used.

Mr. Davitt received a severe scalp wound. He and Tanner are reported to have been in the thick of the fray.

The news of the collision has caused great excitement here and full details of the affair are anxiously awaited.

STARTER ROWE'S SUCCESS.

Another Inventor's Scheme to Get the Horses Away.

James Rowe, late trainer for August Belmont, was the starter at Clifton yesterday.

His work was very creditable, and the start was made in a very creditable manner.

The association has at last awakened from the lethargic state which threatened to do so much harm and it seems as though it intended to give the public proper protection. It showed commendable enterprise in taking the initiative in having a representative of the Club at the starting post, a step that should have been taken by larger clubs long ago.

It will tend to make jockeys more obedient and at the same time it assures the boys that they will not be subject to any unjust treatment. The representative of the Club, Mr. William Kagan, will closely watch the boys and if they deserve punishment they will get it. Howe evinced a determination to get the horses off in order if it took all day, and when the flag finally fell it was a marked success.

Howe is cool and keeps a clear head on his shoulders. There are two necessary things in a starter. He must have some of the boys' confidence, and he must be able to get the horses off in order if it takes all day.
